#### [IL Rt. 176 Roadway Construction Project Update](#)

As part of the [Target Store Development](#) (southwest corner of Rt. 176/41) there are several off site improvements moving forward, including the construction of:

- a dedicated north bound turn lane on west bound Rt. 176 at Waukegan Road;
- an enhanced four way intersection at Rt. 176 and Shagbark:
  - addition of a left turn lane onto Rt. 176 from Shagbark,
  - addition of a left turn lane onto Shagbark from Rt. 176,
  - addition of a right turn lane onto Rt. 176 from Shagbark, and
  - addition of a right turn lane onto Shagbark from Rt. 176;
- a dedicated left turn lane onto Carriage Park from Waukegan Rd.;
- dedicated right and left turn lanes onto Waukegan Rd. from Carriage Park; and
- dedicated right and left turn lanes onto Waukegan Rd. from Albrecht Drive.

**April 24, 2015:** During the week of April 20<sup>th</sup> Berger Excavating

(subcontractor) has: (i) installed 50% of the storm sewer along the north side of IL Rt. 176 west of Shagbark Road, (ii) activated temporary signals and removed/covered existing signals, (iii) graded south side of IL Rt. 176 for the relocation of the bike path, and (iv) resolved the watermain-storm sewer conflict reported last week. During the week of April 27<sup>th</sup> it is anticipated Berger will complete the storm sewer installation, finish excavation of the north side of IL Rt. 176 west of Shagbark Rd. for roadway widening and commence with curb work. Because traffic continues to be an issue on IL Rt. 43 in the construction area, IDOT has revised its traffic control plan which will be implemented next week (weather permitting).

**April 17, 2015:** During the week of April 13<sup>th</sup> progress was delayed due to wet ground conditions caused by heavy rains that fell late last week. Berger Excavating began installation of a new 24-inch storm sewer along the north side of Rt. 176; however, progress was stopped because a Lake County Public Works (LCPW) water main was found in a location that was not anticipated. The actual water main location is in conflict with the proposed location of the new 24-inch storm sewer. On April 17<sup>th</sup>, LCPW personnel are scheduled to be on site to confirm the water main location along the entire length of the project so that alternative plans can be developed. The temporary traffic signals at the Rt. 176 and Waukegan Rd. intersection and Shagbark Road and Rt. 176 intersection are scheduled to be activated for construction work to begin on relocating the permanent signals at these intersections.

**April 10, 2015:** During the week of April 6<sup>th</sup> Berger Excavating completed the curb removal along the north side of IL Rt. 176 from Waukegan Rd. to 200 ft. west of Thorntree Ln. Additionally, topsoil was removed along the north side of IL Rt. 176 from Waukegan Rd. to Clover Ln. On April 11<sup>th</sup> a subcontractor, having received prior approval from the Village to start one hour earlier at 7:00 a.m., will lay temporary pavement markings along IL Rt. 176. According to Berger Excavating, work on the storm sewer will commence on April 15<sup>th</sup> (weather permitting) on the north side of IL Rt. 176 at Clover Lane and progress westerly; daily lane closures will be in place and flaggers used as needed.

**April 3, 2015:** During the week of April 6, 2015 Berger Excavating will commence with the construction of the off-site improvements planned for IL Rt. 176 (as part of the Target Store Development) with curb removal along the north side of IL Rt. 176 from Waukegan Road to the Dunkin' Donuts entrance.

Information regarding the construction work along IL Rt. 176 will be provided as it becomes available; please check back for updates. For questions concerning the roadway construction project please contact Tim Lapp, Senior Engineering Tech at Gewalt Hamilton Associates, Inc., at 847-821-6210.

Additional information regarding the Target Planned Commercial Development is available by [clicking here](#) or contacting Brandon

Stanick, Asst. to the Village Administrator, at 847-283-6889.

**May Semi-Annual Collection Coming Soon**

The upcoming semi-annual collection program is scheduled for Wednesday, May 6<sup>th</sup> (for the Monday collection route) and Wednesday, May 13<sup>th</sup> (for the Tuesday collection route). This program provides residents the opportunity to dispose (free of charge) of large items not picked up as part of the normal refuse collection. Items or containers are to be placed at the edge of the curb on your respective collection day. [Click here for a list of items NOT picked up during the semi-annual collection.](#) If you have any questions regarding collection requirements please contact Groot at 847-404-7668.
